# ABOUT

## **Introduction**

Founded in 1973, Stirlings Performance Steels is a privately owned and operated premier stockholder & distributor of Stainless Steel and Copper Nickel products, and a market leader for the supply of performance steels packages including Duplex, Nickel Alloys, Titanium, Chrome Moly & Carbon Steels.

As an ISO9001 accredited company, Stirlings strives for continual improvement. We have built our foundations on the commitment to provide integrity, innovation and flexibility with all local and international customers.

Being a private company and having operated for over 5 decades, we have a strong belief in value for the service we provide our diverse range of industries and customers. With focus on both domestic and international growth, you can be confident Stirling's will successfully provide global supply options for your requirements.

Stirlings has implemented a range of value added services from our in house processing, domestic and global logistics solutions, coordination of third party inspections & project specific requirements. We are committed to providing quality products and innovative supply solutions to cater to each of our customer's needs. Our comprehensive product lines of stainless steel and copper nickel are as diverse as the customers we service. With an expansive global network of suppliers, you can be assured we can locate even the hardest "hard to find" products.
